Fraser, James, 1817-1878

James Fraser, 1817-1878, was a Scottish-born Canadian explorer, fur trader, and writer. He is best known for his role in the discovery of the Fraser River and his subsequent exploration of the interior of British Columbia. Fraser's expeditions were funded by the Hudson's Bay Company and the British government. He was a member of the Royal Society and the Royal Geographical Society. Fraser's most famous work is "The Great River of the North," which was published in 1858. This work was a detailed account of his expedition down the Fraser River in 1858. It was one of the first books to describe the interior of British Columbia and was widely read in the United States and Europe. Fraser's work helped to establish the Fraser River as a major waterway and led to the discovery of gold in the region. Fraser was also a writer and a journalist. He wrote several books and articles about his travels and the interior of British Columbia. He was a member of the Royal Society and the Royal Geographical Society. Fraser's work was highly influential in the development of the Canadian West.

vertuous wife Agatha. — Of Aramanthus, borne a leper. — Of Phylotus and Emilia.

In the original edition the title is "Riche his farewell to military profession," which is a running title in this. The incidents in the first novel are similar to those in the play "The weakest goes to the wall." Those of the second are similar to the story upon which Shakespeare founded his "Twelfth Night." This latter novel is reprinted in Malone's edition, Collier's "Shakespeare's library," and Halliwell-Phillipps's folio edition. The amount of original work done by Rich is not easy to determine, but several of the "novels" are founded upon older stories, some of them Italian.
